

## AZUR OFFSHORE LTD – NEWS IN 2010

OFFSHORE AND SUBSEA ENGINEERING CONSULTANTS

### EFFECTIVE COOPERATION with the S.U.T. AFRICA BRANCH in LAGOS

FOUR SUT SUBSEA AWARENESS COURSES (5 Days) HAVE BEEN DELIVERED IN LAGOS (Nigeria), in LUANDA (Angola) and in PORT HARCOURT (Nigeria) with sponsoring from Shell SNEPCo, Total Angola & Total Nigeria, Technip & Angoflex, FMC and Aker Solutions. More than 55 delegates attended the lectures and the various visits of Workshops and Yards. The plan for 2011 is to deliver more Courses in Congo (Pointe Noire) and Ghana (Accra) to continue the Technology transfer in the Fields of Subsea Production Engineering and FPSO Technology in West Africa. More courses will also be proposed again in Nigeria.

First course sponsored by SHELL SNEPCo.

Course N°4 Port Harcourt – Total Nigeria Training Center. From left : JL Chasserot, Isabelle Sejourne ( Total Senior Economist & coordinator) and Ross Agazuma SUT Chairman.

After the visit of FMC facilities in PH Offshore Base, discussing the detail design of the specific Agbami Field Subsea Cluster Hybrid Spool connection, in the conference room, with the FMC Subsea Project Engineer for Agbami and the FMC Base manager, Johnny Moore.

**NEW COOPERATION with Petro EDGE FOR 2 NEW COURSES in KL – Dec**

**More Level 2, Courses in 2011 will cover;**  
Flowlines & Risers

Flow Assurance

Subsea Risks/Reliability

Well Head & Xmas Tree

Production Controls/C.I.

Based in Singapore , Petro EDGE have been presenting a wide range of Oil and Gas training Courses since 2007. At the end of 2010, AOL and Petro Edge decided to work together in South East Asia to present 2 courses in Kuala Lumpur for Underwater Inspection Maintenance & Repair Level 2 & for Subsea Production System Engineering Level 1. The two Days Courses generated a good Level of interest, just before the Xmas break. TPA Professor JL Chasserot delivered the two Courses for AOL.
